

Status of Type-A suspension for KAGRA

Thursday, February 14, 2019 5:20 PM (20 minutes)

The test masses in KAGRA are suspended by so-called Type-A suspensions. Type-A suspension consists of 9-stage pendulum and the lower 4-stages is to be operated in a cryogenic temperature. In this talk, the status of the installation of the type-A suspensions and an activity with X-arm cavity are going to be reported.

Presenter: YOSHINORI FUJI (NAOJ)
