

Square Pegs into Round Holes

**Welcome to the
First
Virgo Computing
Centres
workshop!**

- Verify transfer of $h(t)$ data to custodial storage
- Make `/cvmfs/virgo-gw.org` available in all CCs
- Publish some pipeline software on Virgo CVMFS (never mind Conda)
- Set up site support mailing list
- Evaluate timescale to move CNAF pipelines to HTCondor
- Define the user management model for submit nodes
- Verify storage access at Nikhef (and elsewhere)
- Review and adapt user-level documentation
- Organize tutorial/hands on
- ...
