

REINFORCE

Update of WP3 "Gravitational Waves"

Massimiliano Razzano (University of Pisa) and INFN-Pisa

REINFORCE Meeting, Mar 6, 2020

European Commission

WP3 – Updates

● **Glitch classification**

- Started collaboration with GravitySpy to isolate Virgo families
- Prepared Docker to host and run the WP-related code
- Almost done with code that prepare dataset
- Preparing dataset (see above)
- Organizing meeting with Wanda on 20-23 April

● **Infrastructure**

- Almost ready to move code to a shared repo
- Opened a Github repo for REINFORCE (<https://github.com/reinforceeu>) for code. Happy to share
- Plan to put data on EGO owncloud (work in progress)
- Place to share infos and documentation. Options under examination
