

## 2nd SPB Workshop

### Tuesday, 24 January 2023

**'Impacts on ET costs/risks=excavations', including: Geological & Hydrogeological campaigns (boreholes, passive seismic, active seismic, electromagnetic- and gravimetric imaging, etc.) and modelling, where do the sites stand w.r.t. ET implementation i.e. potential corner points, future investigations: goals, planning and funding: morning (11:40 - 13:10)**

time	[id] title	presenter
11:40	[25] Geology in the Rhine Meuse Regio (Bjorn Vink)	
12:10	[26] 3D Geological modelling of the EMR Region (Nils Chudalla)	
12:40	[27] Geological stability of the Sos Enattos site (Giovanni Luca Cardello)	

**'Impacts on ET costs/risks=excavations', including: Geological & Hydrogeological campaigns (boreholes, passive seismic, active seismic, electromagnetic- and gravimetric imaging, etc.) and modelling, where do the sites stand w.r.t. ET implementation i.e. potential corner points, future investigations: goals, planning and funding: afternoon (14:10 - 19:00)**

time	[id] title	presenter
14:10	[28] EMR ET site, cross-border groundwater model: conceptual model and first calibration (Alain Dassargues) ('20+'10)	
14:40	[29] Ground vertical displacements of NE Sardinia (20+'10')	Dr DESSÌ, Francesco
15:10	[30] Resistivity and induced polarisation surveys : results from deep and azimuthal surveys (Yannick Forth and Joost Hase)	
15:40	Coffee/tea	
16:10	[31] EM Geomodelling @ EMR and feasibility in Sardinia (Martin Panzner, EMerald Geomodelling)	
16:40	[33] Geological Field Investigations, Drilling Programs and Geophysical Logging (Pooya Hamdi)	
17:10	[34] Active seismic surveys in the EMR (Marius Waldvogel)	
17:40	[35] Active and passive seismic surveys in the EMR (Soumen Koley)	KOLEY, Soumen
18:10	[36] SWANS - Surface-Wave Ambient Noise Seismic Tomography (Myrna Staring, Fugro)	
18:40	[54] Closing of the 2nd day + Organisational announcements
