

# IGRAV working group: organisational structure

- From last year's meeting in Valencia

*IGOG Inaugural Meeting, Valencia July 13th 2019*

## **Breakout Group: Organizational Structure for IGOG**

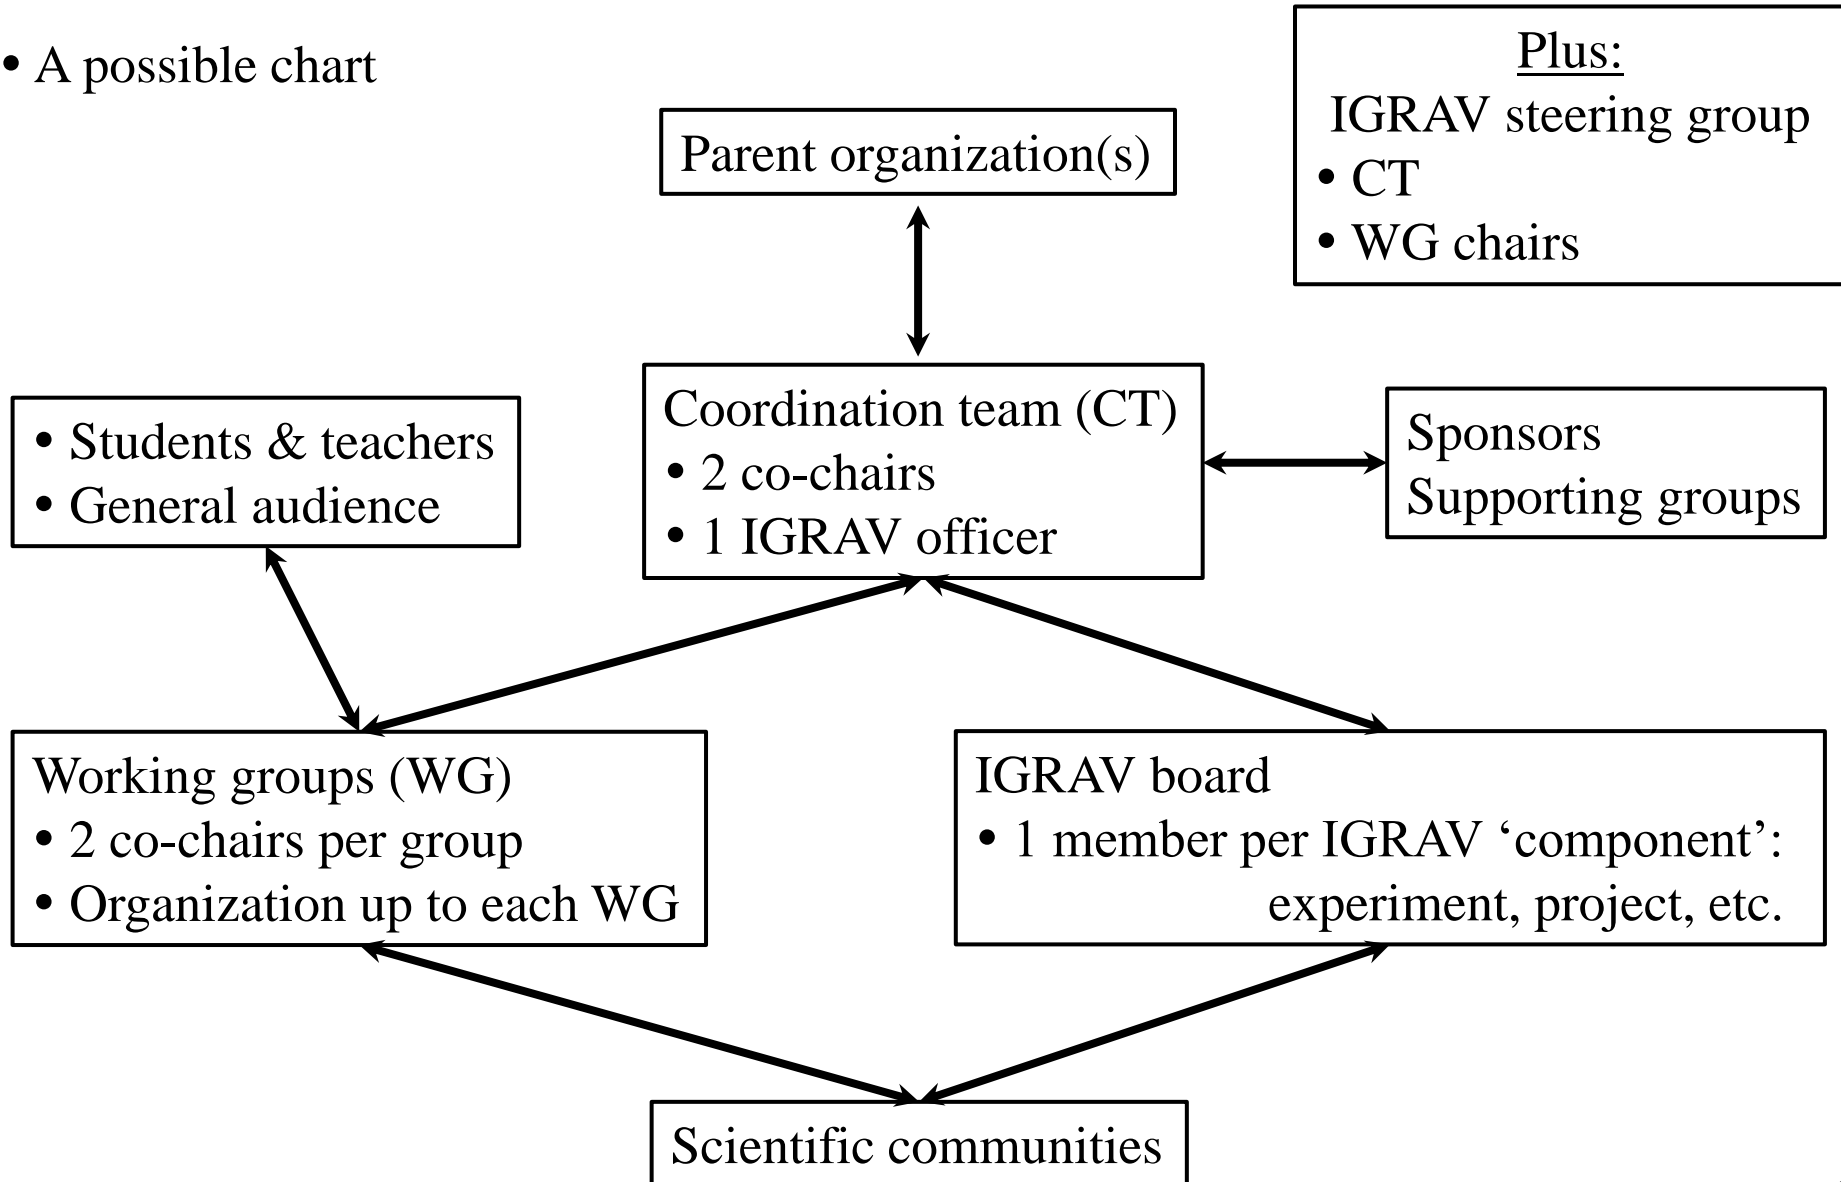

*Nicolas Arnaud, Steve Goldfarb, Joe Giaime*

### Thoughts and open questions

1. **Affiliation:** parent organization needed, a legal entity if possible  
Recommend ISGRG with representation on GWIC?
2. **Structure / organization:** subgroup or committee? Depends on the parent!
3. **Membership**
  - \* people <-> labor
  - \* sponsors <-> money or resources
4. **IT services:** mailing lists + website
  - \* LIGO? \* Cheap but some body should pay for it
5. **Name:** full name and acronym
  - \* "G" <-> Gravity more than "GW" -- Gravitational Waves
  - \* Suggestions: "GOGO" (Global Organization for Gravity Outreach)  
or "IGO" (International Gravity Outreach)

# IGRAV working group: organisational structure

- A possible chart

# IGRAV working group: organisational structure

- Light structure
    - Point-of-contact: both internal and external
    - Lack of IGRAV-specific resources
      - ◆ Personpower
      - ◆ Funding
  - Active working groups are what matters most currently
  - Meetings
    - At least quarterly for the steering group
    - At least bi-annual for the board
    - At least one IGRAV open meeting per year
- Open (and lively) discussion!
