

# IGRAV – Art & Science Collaborations:

Current chair:

Isabel Cordero-Carrión – University of Valencia (Spain) & Virgo Collaboration,  
isabel.cordero@uv.es

## Working Group goals:

- Solidify group governance.
- Finalize description of WG.
- Finalize content for website.
- Determine goals and activities for the coming year. Think about influence of remote working / social distancing measures in activities.

\*\*\* Design of logo: Art & Science group contest (!!!)

- Decide on name (poll)

## WG governance:

- Name.
- Meeting schedule: 1 / month. Only one meeting with few participants.
- Chair / co-chairs.
- Interaction with other IGRAV-WGs: at least current chair in Under-represented group.

## WG description: [ current draft ]

*In this WG we want to collect information about the different exhibitions or events which mix or associate art and science (gravity). We also want to contact different associations or institutions (national and international), so our research will have more visibility and can be used as inspiration for these institutions. On the other hand, we also want to benefit from established contacts with artists and graphic designers who illustrate scientific publications with animations, figures, logos, and artistic outputs in general.*

## WG web content:

- Create a list of collaborations among scientists and artists.
- Difusion to artistical contests related to science (and gravity).
- ...

## WG activities for the coming year:

- Design of IGRAV logo: Art & Science group contest (!!!): Set up call rules, award for winner...
- Own Art & Science contest → virtual deliverables.
- ...
