

Berrie Giebels 1971 - 2023

Berrie Giebels 1971 - 2023

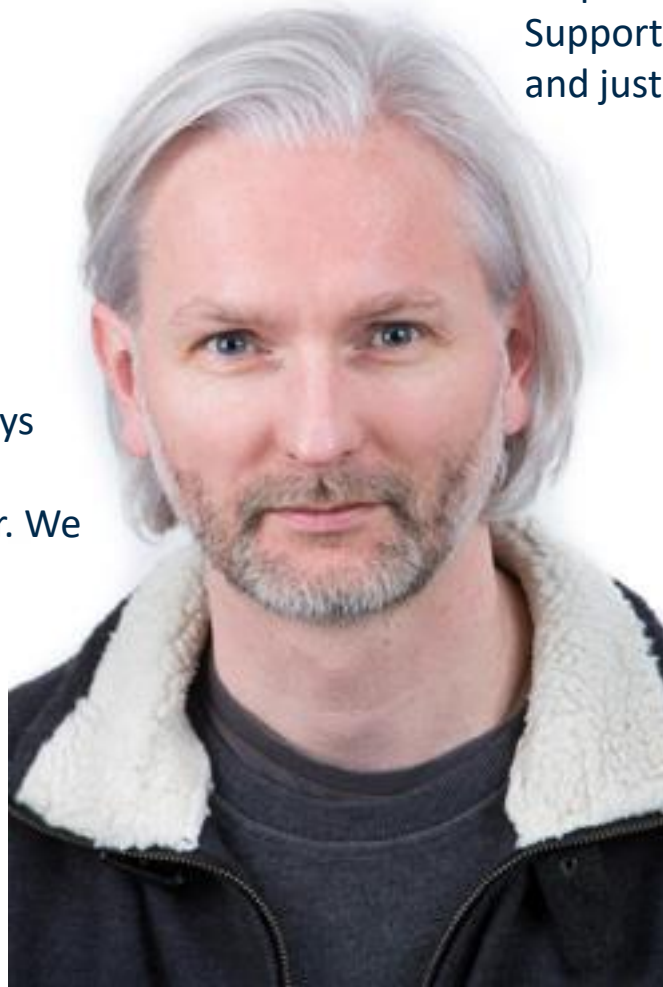

What a tragedy and what a loss of a great person!

He was a brilliant mind and also an exquisite person

Berrie was an extraordinary colleague brilliant kind always positive and with a nice sense of humour. We have lost a great friend

What a loss for such a young and bright mind

We lost a critical mind, constructive supporter and free thinker

He was an incredible human being - kind, empathetic and generous with his time and love. Supportive and nurturing of younger colleagues and just a wonderful person to be around.

A leading light

Berrie was a very insightful scientist and a great person to spend time with professionally and socially

A very pleasant dialogue partner with a lot of expertise and foresight

It is a terrible loss. Berrie was a outstanding scientist - inventive, insightful and so capable in everything he pursued -

We remember him for his kindness, his sense of humour, and his enthusiasm and passion for science
