

The background is a composite image. The top portion shows a night sky with stars and a large, detailed illustration of a black hole merger. The middle portion shows a landscape with green fields and a road, overlaid with a large, purple dashed triangle. The bottom portion shows a 3D cutaway of the Einstein Telescope's underground structure, with blue and red components.

- Communications and Education Committee (CEC) - **Susanne Milde** (Hannover)
- Bylaws Updating Committee (BUC) - **Harald Lück** (Hannover)

“The general guidelines for the SSB are the following:

- Each committee may include ex-officio members;
- The number of members in each committee is adjusted by the CB at the time of renewal depending on the upcoming tasks;
- With the exception of ex-officio members, an ET collaborator can only be a member of one SSB committee and should not be responsible for another board (ISB, OSB, EIB, SCB);
- Each SSB Chairperson may choose a Deputy among the members of the committee;
- SSB members should remove themselves from discussions in which they have a direct or indirect conflict of interest unless the Chairpersons of that Board (or the CB chair) request otherwise.

The Chairpersons of each SSB regularly report to the Collaboration Board.”

The CB chair, the SP and the Chairperson of each committee propose the list of SSB members for endorsement by the CB.

It is the responsibility of the CB to ensure a fair representation of the ET Collaboration diversity in the SSB memberships.”

Agenda CB Meeting 13.05.2024

- Introduction by the CB Chair
- Presentation of two new Research Units
- Report from the EB by the Spokesperson
- On the formation of the Standard and Service Board Committees
- AOB
