

VirgoLab composition Virgo Membership Database simulation tool

Viola Sordini (but actually Gary Hemming)

What would VirgoLab look like?

- Tool to simulate the VirgoLab is now live within the [Virgo Members Database Dashboard](#), work by **Gary Hemming (EGO)**
- Table shows all groups with at least one SVAC dedicated to Commissioning, Detector or Operations.
- A **dropdown menu** allows to make an additional selection on the individual SVAC.
- The classification of the activities and the numbers declared by members are being reshuffled **don't look at the numbers yet!** We will have a more meaningful version by December EGO council.

SVAC for: Commissioning, Detector, Operations

Showing breakdown for SVAC >= 0.4

Activity	Countries	Members involved	SVAC	
			Total contribution	Avg. contribution / Member
Commissioning	International	24	13.59	0.57
Data Analysis	France	17	9.78	0.58
Detector	Italy	32	16.46	0.51
Governance and Collaboration Organisation	Poland	2	1.4	0.7
Operations	Netherlands	3	1.6	0.53
Outreach	Spain	3	1.95	0.65
Virgo_nEXT	Totals	81	44.78	0.55
